SKILLS

Project Management

Web Development

Basics of Python and C

Business Analysis

HOBBIES

- 📖 Programming and Web Development
- 📖 Photo-Video Editing

PROFILE

Hey there, future coding maestro! I'm Sid, a passionate beginner programmer with a knack for problem-solving and an insatiable curiosity for all things tech. Despite my novice status, I've already achieved some remarkable milestones – from creating my first responsive website to mastering the basics of C.

My secret sauce? A blend of determination, creativity, and an unyielding desire to learn. I thrive on challenges, turning them into opportunities to enhance my coding skills.

Whether it's debugging a tricky piece of code or diving into a new programming language, I'm always up for the challenge.

One of my standout qualities is my ability to think critically and find innovative solutions. I'm a quick learner, constantly exploring the latest trends and technologies in the ever-evolving world of programming. My enthusiasm is contagious, making me a great team player and collaborator.

But my journey is just beginning, and I'm hungry for more. I'm here to soak up knowledge, make meaningful connections, and contribute to the exciting realm of technology. Together, let's code our way to greatness!

EDUCATION

+2 Science | Kathmandu Model College

Jan 2020 - Jan 2023

- GPA: 3.76.
- Science stream.
